CONTINUING

Question:

I just wanted to follow up on the below question regarding RFQ – EPC which includes a section denoted “Reference Project Information (To be Completed by the Project Owner)”: Is the Project Owner the Project Manager working for the Consultant that performed the work? Or is the Project Manger working for the Public Agency owner of the subject project?

Answer:

The Project Owner would be the entity that hired the contractor to complete the project. The reference would come from the Project Owner, whether it was a public entity or private entity.
